Value	#	x	Cost
Number of Fatalities	0	1,210,000.00	\$0.00
Number of Injuries	25	62,500.00	\$1,562,500.00
Number of Property Damage Only	64	8,200.00	\$524,800.00
<b>Total</b>			<b>\$2,087,300.00</b>

\*Economic costs may be used by a community to state or estimate the economic impact of motor vehicle crashes that occurred within its jurisdiction in a given time period. It is a measure of the productivity lost and expenses incurred because of the crashes. Economic costs, however, should not be used for cost-benefit analysis because they do not reflect what society is willing to pay to prevent a statistical fatality or injury.

National Safety Council "Estimating the Cost of Unintentional Injuries", 1988
